

# New Die Marriage 1876-CC WB-39, Small CC

## Obverse 8

- Centered date with die crack along the bottom of the digits of the date (photo)

- Thick diagonal die line behind Liberty's eye (photo)

- Scattered lumps and lines in Liberty's gown (photo); other on Liberty's chest and neck area
- Die crack around the complete circumference; thru all stars, rock support, and date

## Reverse AA

- Small CC with close spacing, placed high with level CCs (photo). When compared to the other small CCs in 1876, this mintmark position is unique. The feather tip is over the left edge of the upper serif of the left C; none others have this position.

- Only example seen: weak die crack in the field below (AMERI)CA (photo)
- Weak tail feathers below shield

This is the third use of this obverse die and first use of this reverse die in 1876. A revised emission sequence for this die combination is WB-12 (8I), WB-13 (8J), WB-38 (8O), and then WB-19 (14O). This die marriage was discovered by Bill Bugert in an online dealer's stock.

Date grid: M2.5, .033"	Unknown reeds	Typical diameter = Unknown"	Rarity - 7
Drapery die state: Full	Foot support: Strong	Denticles: Obverse - Full; Reverse - Full	
Grade of coin depicted: PCGS AU53		Coin from the Bill Bugert collection
