

Verne's View: Another Successful PVCC Show!

By Verne Pitman, LSCC #2467

On May 3, 2026 Verne Pitman attended the annual show of the Pawcatuck Valley Coin Club (PVCC) in Norwich, CT. Verne hosted the joint table representing both the Liberty Seated Collectors Club and the Barber Coin Collector's Society. The PVCC show is an annual event held on the first Sunday of May each year; the LSCC/BCCS has had a table at this show for many years. As always, the show was very well attended and many visitors, both members and non-members alike stopped by the LSCC/BCCS table to see the displays and talk about both coin series. No new members were signed up at the show although the stock of membership applications was swept up by prospective members...hopefully for later completion and submission.

As seen in the picture, among the many visitors to the table was young numismatist Ashton (Ash) Pitman. He's about 18 months old and although he might not realize it, he has the beginnings of a collection squirreled away in his piggy bank.

A George Washington themed young numismatist program was hosted by PVCC President Woody Carland and had a number of YNs in attendance.

As the show wrapped up on Sunday afternoon the PVCC members congratulated each other for completing another successful show and began planning to do it all again in May 2027.
