

Liberty Seated Collectors Club

Uniting collectors of Liberty Seated coinage since 1973

President's Message

Welcome to the February issue of the E-Gobrecht. The acceleration in precious metal prices is capturing everyone's attention and bringing related focus to the rare coin market. There is a little to say today that won't be out of date by the time you read this, except that gold and silver have been viewed as a safe haven for millennia and continue to act in that capacity.

On the E-Gobrecht editorial front, we are making preparation for Paul Kluth's transition and will have more to share next month on that update. Many thanks to Paul for expanding the reach of the E-Gobrecht over the length of his tenure. Enjoy this issue, and we will see you virtually again in a few weeks ...*Len Augsburger*
